

# Global Symposium: Progressive Keratoconus Management

(EuCornea, Cornea Society, Asia Cornea, Pan Cornea & International Keratoconus Society)

## 16.30 – 18.30 | Auditorium

**Moderators:** Béatrice Cochener-Lamad *France*, Mario Nubile *Italy*

### Part 1: What is progression and how to halt it?

Shizuka Koh *Japan* (**Asia Cornea Society**)

Factors influencing progression in keratoconus:

Michael Belin *USA* (**Cornea Society**)

Definition and diagnosis of ectasia progression: do we have a consensus?

Luis Izquierdo *Peru* (**PanCornea**)

Best Technologies for changes detection

Ingemar Gustafsson *Sweden* (**EuCornea**)

Corneal cross-linking to stop progression: How and when?

Cosimo Mazzotta *Italy* (**International Keratoconus Society**)

Limits and complications of Cross Linking

### Part 2: Ectasia Management for Visual Rehabilitation

George Kymionis *Greece* (**EuCornea**)

Laser ablation and combined techniques with CXL: what is the current evidence? George Kymionis

Denise De Freitas *Brazil* (**Cornea Society**)

Progression despite treatment: what to do?

Adel Barbara *Israel* (**International Keratoconus Society**)

Intracorneal corneal ring segments: interest of customization

Daniel Scorsetti *Argentina* (**PanCornea**)

When the battle is lost: indications to stromal replacement and DALK or Time and DALK strategies

Koji Kitazawa, *Japan* (**Asia Cornea Society**) Can we one day cure keratoconus (perspectives in biomarking and genetic therapy)
